Tips to the Weekend Decorator

By DUTCH HORLANDER, Paramount Center

Treat Your Tools Right . . . They'll Last A Long Time

Between your week-end decorating projects, take care of your brushes. Work a good cleaner well into the bristles. Clean out the paint with a stiff wire comb. Wash brushes in warm water and soap and rinse thoroughly. Hang by handle to dry, then wrap brush in paper to protect from dust. Store flat to preserve shape.

Your local dealer can tell you a lot about brushes. For your week-end decorating jobs, he'll most likely recommend two or as many as three types.
 2 to 2½-inch brush for wood-work
 4 to 5-inch brush, or a roller, for large areas.
 1½-inch long handled sash brush for windows
 Good brushes hold more paint and do a smoother job. Give them the consideration they deserve. Don't overload them; don't scrape across rim of can; don't ever stab bristle points into corners.

How Much Paint Will You Need?

Your paint or hardware dealer will be glad to help you figure this out. He will ask you, of course, how many square feet you plan to cover. So, first of all, take your tape measure or yardstick and jot down the length of one side wall, one end wall and the height of the ceiling. While you're at it, get the number and size of doors and windows, so there areas can be subtracted from the total area of your ceiling and walls.

Recommend Extra Equipment

Your local dealer has many new and modern items like these that will make your week-

end decorating even easier.
 Drop Cloth—the new kraft crepe-paper drop cloths are inexpensive and handy to protect your things from spatter.

Stepladder—if your household doesn't have one, it's a great improvement over standing on chairs or tables.
 Liquid Masking Tape—For protecting windows and edges you don't want to paint. Apply with a brush; it hardens to a protective film. When finished, strip it off like cellophane tape.

Paint Pail—Cheap, easy to work with. Wide tops accommodate all size brushes. Ideal for mixing modern paints.

Brush Holder—A small clamp that fastens to paint pail rim—holds brush neatly inside pail.

Roller Pan—Fastens to ladder. Sandpaper.
